Objective

I want to secure a responsible career opportunity to fully utilize my training and skills while making a significant contribution to the success of the company and gaining more practical experience.

Experience

Free-lancing (2017 - 2019) – KFA Business School

- Increased sales team efficiency by 20% through a comprehensive Sales Tracking System I developed using PHP, MySQL, CSS, and JavaScript. The system was implemented for the insurance departments of both Himalayan Bank Ltd and Shangri-La Development Bank Ltd.
- Ensured data security by implementing user access control and secure password storage with PHP and MD5 encryption.
- Enhanced user experience by designing the system for easy search and reporting based on various criteria, such as bank branch, date range, and staff member.

Assistant IT Officer (Feb 2022 - Ongoing) – Grande Int'l Hospital

- Resolved HIMS user issues and provide training to staff at Grande Int'l Hospital, ensuring efficient system utilization, increased user satisfaction and productivity.
- Integrated Picture Archiving and Communication System (PACS) to improve medical image storage and retrieval processes as well as ensuring improved workflow.
- Migrated Grande Int'l Hospital's HIMS system and email server to the cloud, enhancing accessibility, scalability, and data security.
